## **REMARKS**

Reconsideration of the application is respectfully requested. Claims 34 and 35 have been amended. Claims 34-36 are pending and at issue.

Claim 34 has been amended for clarification to remove the term "Fragment" from the phrase "Fragment T," as suggested by the Examiner.

Claim 35 has been amended to indicate the point of attachment for each of the protecting groups shown in this claim. Support for this amendment is found in the specification as indicated, for example, in Table D (copy attached as Exhibit A), which was previously submitted to the U.S. Patent and Trademark Office with an Amendment filed November 3, 2003 in connection with the present application.

No new matter has been added.

## Rejection Under 35 U.S.C. §112, First Paragraph

Claim 35 has been rejected under 35 U.S.C. §112, first paragraph as containing new matter. The Examiner states that the claimed protecting groups are not supported by the specification.

The rejection is respectfully traversed, and reconsideration is requested.

Support for each of the protecting groups recited in claim 35 is found in the specification, as indicated in Table D, which lists specific examples of support for the protected amino acid side chains. No new matter has been added. Accordingly, applicants respectfully request that this rejection be withdrawn.

## Rejection Under 35 U.S.C. §112, Second Paragraph

Claims 34-36 have been rejected under 35 U.S.C. §112, second paragraph as being allegedly indefinite. According to the Examiner, the listing of protecting groups in claim 35 is

7

indefinite because the point of attachment on each protecting group is not clear. Additionally, the

Examiner states that the phrase "Fragment T" in claim 34 is indefinite, and suggests deletion of

the word "Fragment."

Claim 35 has been amended to indicate the point of attachment on each protecting group

listed in this claim. Support for this amendment is found in the specification as shown in Table

D. Additionally, claim 34 has been amended to remove the word "Fragment" from the phrase

"Fragment T," as suggested by the Examiner. Therefore, applicants respectfully request that

these rejections be withdrawn.

Conclusion

In view of the above amendments and remarks, it is respectfully requested that the

application be reconsidered and that claims 34-36 be allowed and the case passed to issue.

If there are any other issues remaining, which the Examiner believes could be resolved

through either a Supplemental Response or an Examiner's Amendment, the Examiner is

respectfully requested to contact the undersigned at the telephone number indicated below.

Dated: August 29, 2006

Respectfully submitted,

Protecting Groups on Amino Acids Side Chains (W)

Table D

Substituent Group with Structure	Support in Document
م کیج	Specified as part of definition of $R_{6_1}$ and $R_{6_2}$ , p 6, line 23, also within Claim 1. Specified in Figure 1 as part of definition of PGN where PGN <sub>1</sub> and PGN <sub>2</sub> are shown on the Arg side chain.
Вос	Specified as part of definition of $R_5$ , p 6, line 23, also within Claim 1, with $R_5$ being -COO-tBu. Specified in Figure 1 as part of definition of PGN.
Ph O ZZ	Part of definition of R <sub>61</sub> and R <sub>62</sub> , p 6, line 23, also within Claim 1, as –COO-CH <sub>2</sub> -Ar where Ar, the aromatic moiety, is phenyl. Specified in Figure 1 as part of definition of PGN (PGN <sub>1</sub> and PGN <sub>2</sub> are shown on the Arg side chain), where it is listed as –CO-O-Bn, with Bn being an acceptable alternative abbreviation for benzyl.
Cbz	Part of definition of $R_5$ , p 6, line 23, also within Claim 1, with $R_5$ being -COO-CH <sub>2</sub> -Ar with Ar, an aromatic moiety, being phenyl. Specified in Figure 1 as part of definition of PGN as -CO-O-Bn where Bn is an acceptable alternative abbreviation for benzyl.
	Specified as part of definition of $R_8$ , p 7, line 11, also within Claim 1, with $R_8$ being -O-tBu. Specified in Figure 1 as part of definition of PGacid as -O-tBu.
tBu	Specified as part of definition of $R_9$ , p 7, line 19, also within Claim 1, with $R_9$ being – tBu. Specified as part of definition of PGS in Figure 1.
Ph Srs	Part of definition of $R_8$ , p 7, line 12, also within Claim 1, with $R_8$ as -O-CH <sub>2</sub> -Ar with Ar, an aromatic moiety, being phenyl. Specified in Figure 1 as part of definition of
Bzl	PGacid as –O-Bn, with Bn being an acceptable alternative abbreviation for benzyl.

Fmoc	32500	Doc	Fm	255	Et	H <sub>3</sub> C <sub>&gt;&gt;</sub> ر
	Part of definition of $R_5$ , p 6, line 23, also within Claim 1, with $R_5$ being -COO-CH <sub>2</sub> -Ar with Ar, an aromatic moiety, being fluorenyl.	Specifically presented within Example 1 (p 20) as well as in an Example preparation of Nº-Boc-N <sup>im</sup> -Doc-histidine as an amino acid building block on pp 41-42.		Part of definition of $R_8$ , p 7, line 12, also within Claim 1, with $R_8$ being -O-CH <sub>2</sub> -Ar with Ar, an aromatic moiety, being fluorenyl.	Part of definition of $R_8$ , p 7, line 12, also within Claim 1, with $R_8$ as -O-CH <sub>3</sub> substituted with the selection of -CH <sub>3</sub> from the specified group presented. Part of definition of PGacid in Figure 1 with PGacid being -O-CH <sub>3</sub> substituted with the selection of -CH <sub>3</sub> from the specified group listed in the footnote.	Specified as part of definition of $R_8$ , p 7, line 11, also within Claim 1, with $R_8$ being -OCH <sub>3</sub> . Specified in Figure 1 as part of definition of PGacid as -OCH <sub>3</sub> . Listed as part of the products obtained in Example 6, p 37.

2-Cl-Z

Part of definition of  $R_5$ , p 6, line 23, also within Claim 1, with  $R_5$  being -COO-CH<sub>2</sub>-Ar with Ar, an aromatic moiety, being 2-chlorophenyl.
